Slow the spread with the **FLU VACCINATION**

The flu (also known as influenza) sends thousands of Ohioans to the hospital each year—yet about half of Ohioans do not get vaccinated. As your guide to better health, Buckeye Health Plan helps you prevent and slow the spread of this serious virus.

Protect yourself and your family

The best way to prevent the flu is to get vaccinated. Flu shots prevent tens of thousands of hospitalizations each year and weaken symptoms if you do get the flu. Buckeye encourages all Ohioans, ages six months and older, to get their flu shot early for protection through the flu season.

In addition to getting your flu shot, you should make sure to cover coughs and sneezes, wash hands regularly and maintain healthy habits like getting enough sleep, exercising often and drinking plenty of water. And remember, if you have the flu, stay home to recover and stop the spread!

Buckeye makes it easy to protect yourself from the flu with:

- No-cost transportation to and from your vaccination.
 Call 866-531-0615 at least 48 hours in advance to schedule.
- \$25 in My Health Pays[®] rewards for getting a flu shot.
 You can spend rewards on things you need at Walmart[®] and Sam's Club[®] or on rent, utilities and more.*

Get your flu shot at your doctor's office or pharmacy. Visit **BuckeyeHealthPlan.com** and click on "Find a Provider" to find a flu vaccination location near you.
