

Buckeye Health Plan

Biopharmaceutical Program

Buckeye Community Health Plan works with AcariaHealth to provide biopharmaceuticals and injectables through the Biopharmaceutical Program. As mentioned in the Biopharmaceutical Program most biopharmaceutical and injectables billed for more than \$250 require a prior authorization (PA) to be approved for payment by Buckeye Community Health Plan. The prior authorization requirements for the AcariaHealth supplied products are programmed specific to the drug and indicated in the table below. Since the list of drugs requiring prior authorization changes over time, due to new drug arrivals and other market conditions, the \$250 amount is used as a reference gauge to help in determining whether to apply for prior authorization.

A variety of biopharmaceuticals and injectables can be supplied by AcariaHealth using the following guidelines.

1. Use the AcariaHealth enrollment forms located on the website at www.bchpohio.com/for-providers/pharmacy.
2. Call AcariaHealth at 1-855-535-1815 or fax AcariaHealth the enrollment form to 1-855-815-9894 for prior authorization. Physicians can request that AcariaHealth deliver the biopharmaceutical product or specialty injectable to their office or to the member's home.
3. If approved, AcariaHealth will contact the physician or member for delivery confirmation.

While the Buckeye Community Health Plan Medical Director and Buckeye Community Health Plan Director of Pharmacy Services oversee the clinical review, AcariaHealth is responsible for procuring the prior authorization process.

If a provider wishes to use office stock or if a drug is not listed on the product list below, they can call the Buckeye Community Health Plan Department Medical Management department at 1-866-246-4359.

Please note that medications denoted with a single asterisk (*) are Limited Distribution Drugs AcariaHealth has access to. Medications denoted with two asterisks (**) are not accessible to AcariaHealth. However, we continue to aggressively and strategically seek access to additional Limited Distribution products.

All Buckeye Community Health Plan covered products are listed in the Preferred Drug List (PDL). For the most current Buckeye Community Health Plan PDL you may call Member Services at 1-866-246-4358 (TTY/TTD 1-800-750-0750) or visit the Buckeye Community Health Plan website at www.bchpohio.com.
