BUCKEYE HEALTH PLAN

Buckeye Health Plan (Buckeye) is a state-licensed, for profit managed care organization. The Plan began serving Ohio Medicaid Members in January 2004.

The Plan is wholly owned by Centene. Centene Corporation is a recognized market leader in government-supported, physician-driven, managed healthcare for Medicaid consumers.

If you have difficulty in reading or understanding this information, please contact Buckeye member services at 1 (866) 246-4358 or TTY at 1 (800) 750-0750 for help. This information can be provided orally in English, or in your primary language. Written translations may be available in certain languages and accommodations will be made for the visually impaired. The list is up-to-date as of June 5, 2025, but you need to know that: Some Buckeye Health Plan network providers may have been added or removed from our network after this Directory was published.

Some Buckeye Health Plan providers in our network may no longer be accepting new members. If you are having trouble finding a provider who will accept new members, call Member Services at 1-866-246-4358 and we will help you.

To get the most up-to-date information about Buckeye Health Plans network providers in your area, visit www.buckeyehealthplan.com or call Member Services at 1-866-246-4358 7a.m. to 7 p.m. Monday to Friday, TTY users should call 1-800-750-0750 (711). The call is free.

All female members are allowed to self-refer to certified nurse midwives (CNMs), obstetricians and gynecologists on Buckeyes provider panel. In addition, female members are also allowed to self-refer to womens health specialists on the Buckeye panel for routine and preventative healthcare services if their PCP is not a womens health specialist. For a list of womens health specialists on Buckeyes panel, please call 1 (866) 246-4358 or TTY at 1 (800) 750-0750.

Members may access most specialists without a referral; however some specialists may request a referral from your Primary Care Provider (PCP). Its a good idea to discuss seeing a specialist with your PCP first so that he or she can help coordinate your care. For more information, please contact member services at 1 (866) 246-4358 or TTY 1 (800) 750-0750.

Examples of the providers include:

- Certified Nurse Midwives (CNMs)
- Community Mental Health Centers
- Federally Qualified Health Centers (FQHCs)/Rural Health Centers (RHCs)
- Obstetricians/Gynecologists
- Ohio Department of Mental Health and Addiction Services (MHA) certified treatment centers
- Qualified Family Planning Providers (QFPPs)

Buckeye offers up to 15 round-trip visits (30 one-way trips) per member per 12-month period to covered healthcare/dental appointments, WIC appointments, and redetermination appointments with your CDJFS caseworker. Members can call Member Services directly 48 hours (two business days) in advance at 1-866-246-4358 to arrange for transportation except for urgent appointments. Urgent appointments will be verified with the provider before transportation is scheduled. Please have your providers name, address and phone number along with the appointment date and time before calling to schedule transportation.

Directory of Diamond Designation™ Specialty Providers Program Year 2024

This listing is available to members online at <https://buckeyehealthplan.com/find-a-doctor.html>

What does the Diamond Designation™ mean?

The Diamond Designation™ Program rates certain specialty care providers on the quality of care that they provide for members. Specialty providers receive the Diamond Designation™ rating for higher quality of care. Buckeye Health Plan Medicaid members can find Diamond Designation™ specialty providers in this listing. The Program will be updated approximately every year to provide more recent rating results.

How to use this Directory

As a Buckeye Health Plan Medicaid member in Ohio, you have the option to use this listing of Diamond Designation™ providers to help inform your decisions for selecting a specialty care provider across 11 specialty types listed to below. The Diamond Designation™ Program is available in select counties of Ohio that are listed below.

Ratings from the Program are determined at a provider group practice level so the individual specialists within the practice group will receive the same rating as the whole group. This is because there usually are not enough cases for an individual specialist to be reasonably rated through the Program. Rating at a provider group level allows more providers to be rated and allows you to understand the overall rating for the whole specialty group practice.

Ratings from the Program should serve as guide in selecting specialty care and should not serve as the sole basis for specialist provider selection. You should consider all factors in making decisions for specialty care and you are also encouraged to consult with your primary care provider when selecting a specialist. Information from the Diamond Designation™ Program is not used in provider pay-for-performance programs.

The absence of a rating for a specialty provider does not mean that they do not provide quality or efficient healthcare services. There are several reasons why a specialty provider may not have quality or efficiency ratings from the Program including:

1. The provider practices in a specialty type or sub-specialty that is not included in the Diamond Designation™ Program.
2. The provider is in an area of Ohio where the Diamond Designation Program is not available.
3. There was not enough data to rate the provider.

As a member of Buckeye Health Plan, you have a choice of providers that are in our network of physicians and other clinicians who provide specialty care. Not all specialty providers in the Buckeye Health Plan network receive the Diamond Designation™. To see the full list of all available, in-network Buckeye Health Plan providers please visit buckeyehealthplan.com/find-a-doctor.html or call Member Services at 1-866-246-4358.

Ohio Counties Included

- Butler
- Clark

Questions about the Diamond Designation™ Program? Please reference <https://www.buckeyehealthplan.com/find-a-doctor.html>. If you need further information, have questions, or feedback on the Diamond Designation™ Program you may reach us at **ContactUs@DiamondDesignation.com**.

Complaints? If you have a complaint about the Diamond Designation™ Program, you may register a complaint with us. If you are a Medicaid member please see [Buckeye Health Plan Medicaid Member Complaints Info](#).

Important Notes

The Diamond Designation™ Program makes quality and efficiency rating information available for potential use by primary care providers. Such information can help inform referral decisions for specialty care. Also, for Buckeye Health Plan Medicaid members in Ohio, a listing of Diamond Designation™ providers is made available online to potentially help inform specialty care provider selection. Quality is emphasized over efficiency in the evaluation process. Primary care providers and Buckeye Health Plan Medicaid members are advised that ratings from the Program should not serve as the sole basis for specialist provider selection. We evaluate specialty provider quality and efficiency for in-network providers at a practice group level based on tax identification number. The current Program evaluates 14 specialty types: Cardiology, Counseling, Endocrinology, Gastroenterology, General Surgery, Nephrology, Neurology, Obstetrics/Gynecology, Ophthalmology, Orthopedic Surgery, Podiatry, Psychiatry, Psychology, and Pulmonology.

Physicians are solely responsible for evaluating the needs of members and directing them to the most appropriate healthcare services. The Diamond Designation™ Program does not, in any way, certify the quality or efficiency of care that members receive from providers who are included in Program evaluations, nor should information from the Program be considered, in any way, as an endorsement of a particular provider or such provider's delivery of care. Ratings from the Diamond Designation™ Program are only a partial evaluation of quality and efficiency and should not solely serve as the basis for specialist provider selection (as such ratings have a risk of error). Other factors may be important in the selection of a specialist. Neither participating specialists nor referring providers are agents of Buckeye Health Plan. Providers are solely responsible for the treatment and outcomes of their patients. Physicians participating in Buckeye Health Plan networks have met specific minimum credentialing requirements. Buckeye Health Plan members have access to providers in the Buckeye Health Plan network according to their benefit plan and are not limited to certain providers based on ratings from the Program. The Program and its results are not utilized to determine payment under Buckeye Health Plan pay-for-performance programs.

The Program is based on national standards including the emphasis of quality over efficiency of care, and is developed with feedback from consumers, purchasers, physicians, and other clinicians. Specialty provider groups who are rated within the Program may, pursuant to Program policies, request a change or correction to information used to determine their quality or efficiency ratings. The absence of any quality or efficiency rating should not be construed to suggest that a provider does not provide quality or efficient healthcare services. Reasons a provider may not have a rating available for quality or efficiency include but are not limited to: 1) The provider practices in a specialty or geography that is not included in the Diamond Designation™ Program; or 2) There is insufficient data to meet minimum sample size requirements for statistical evaluation. The rating methodology of the Diamond Designation™ Program is subject to change from year to year. The information contained in this Program Overview is subject to change at the discretion of Buckeye Health Plan.

Accessibility Information

Below is information used in the provider directory to indicate accessibility at a provider office or building site. This information is not a promise that every doctor will always have the access that you may need. If you have a disability, you should call the doctor's office to talk about your access needs.

Accessibility Requirements:

All Criteria Met: if the provider meets all (49) Critical Elements (CE) for disability access in four (4) main areas:
Parking, Exterior Building, Interior Building, and Programmatic Access.

Some Criteria Met: if the provider does not meet 1 or more of the CEs.

No Criteria Met: if provider reports having no disability access for all of the CEs.

Details Pending: if there is no data to support any of the 4 main areas.

Indicator	Definition	Criteria
P	Parking	Parking spaces and van-accessible space(s), are accessible. Curbs to on-site parking, public transportation, and the side walk at the site entrance have curb ramps.
EB	Exterior Building	There is an accessible ramp to the building. Curb ramps and other ramps to the building are wide enough for a wheelchair/scooter. There are handrails on both sides of the ramp. Doors are wide enough for wheelchair/scooter to enter and the doors have handles that are easily opened.
IB	Interior Building	Doors are wide enough for a wheelchair/scooter and have handles that are easily opened. There are interior ramps that have handrails. If an elevator is present, it must be free for public use. The elevator has easy-to-hear sounds and Braille buttons within reach. The elevator is large enough for a wheelchair/scooter to turn around. The restroom is accessible, has doors wide enough for wheelchair/scooter and are easy to open. Offices have accessible equipment and clear for space where the equipment is for side transfers by wheelchair or scooter users. Lift equipment exists when needed. If office has a chair lift, it can be used without help.
PA	Programmatic Access	Programmatic access includes, but is not limited to: accessible communication and materials in other formats given in a timely manner, staff help with follow-up visit planning, and other disability-related support (people with disabilities who cannot wait in waiting room are seen right away).
~	Rx	This pharmacy can provide an extended day supply.
+	New patients	Physician is currently accepting new patients.
#	Existing only	Physician is currently accepting existing patients only.
*	No patients	Physician is not currently accepting patients at this time.
	Bus route	Provider indicated this location is on bus route.

Medicaid from Buckeye Health Plan cannot guarantee the accuracy of provider self-reported disability access information as it has not been verified by the health plan through an in-person Accessibility Site Review (ASR). Members are encouraged to contact the provider in advance to ask about disability access, and to contact the health plan immediately if the self-reported information is not accurate.
