Buckeye Health Plan Pharmacy Program

Buckeye Health Plan, Inc. (Buckeye) is committed to providing appropriate, high quality, and cost effective drug therapy to all Buckeye members. Buckeye works with providers and pharmacists to ensure that medications used to treat a variety of conditions and diseases are covered. Buckeye covers prescription medications and certain over-the-counter (OTC) medications when ordered by a physician/clinician. The pharmacy program does not cover all medications. Some medications require prior authorization (PA) or have limitations on age, dosage, and maximum quantities. This section provides an overview of the Buckeye pharmacy program. For more detailed information, please visit our website at www.bchpohio.com. The following program covers both the Covered Families & Children (CFC) and Aged, Blind or Disabled (ABD) Ohio Medicaid consumers who are enrolled in Buckeye.

Plan Preferred Drug List and Prior Authorization List

The Buckeye Preferred Drug List (PDL) describes the circumstances under which contracted pharmacy providers will be reimbursed for medications dispensed to members covered under the program. All drugs covered under the Ohio Medicaid program are available for Buckeye members. The PDL includes all drugs available without PA and those agents that have the restrictions of Step Therapy (ST). The PA list includes those drugs that require PA for coverage. The PDL applies to drugs you receive at retail pharmacies. The PDL is continually evaluated by the Buckeye Pharmacy and Therapeutics (P&T) Committee to promote the appropriate and cost-effective use of medications. The Committee is composed of the Buckeye Medical Director, Buckeye Pharmacy Director, and several Ohio primary care physicians, pharmacists, and specialists. The PDL does not:

- Require or prohibit the prescribing or dispensing of any medication
- Substitute for the independent professional judgment of the physician/clinician or pharmacist, or
- Relieve the physician/clinician or pharmacist of any obligation to the patient or others

US Script

With the exceptions of biopharmaceuticals and specialty drugs, Buckeye works with US Script to process all pharmacy claims for prescribed drugs. Some drugs on the Buckeye PDL and PA list require a PA and US Script is responsible for administering this process. US Script is our Pharmacy Benefit Manager.

Follow these guidelines for efficient processing of your authorization requests:

1. Complete the Buckeye Health Plan/US Script form: Medication Prior Authorization Request Form.
2. Fax to US Script at 1-866-399-0929.
3. Once approved, US Script notifies the prescriber by fax.
4. If the clinical information provided does not explain the medical necessity for the requested PA medication, US Script will deny the request and offer PDL alternatives to the prescriber by fax.
5. For urgent or after-hours requests, a pharmacy can provide up to a 72-hour emergency supply of medication by calling 1-800-460-8988.

Prior Authorization Process

The Buckeye PDL includes a broad spectrum of brand name and generic drugs. Clinicians are encouraged to prescribe from the Buckeye PDL for their patients who are members of Buckeye. Some drugs will require PA and are listed on the PA list. In addition, all name brand drugs not listed on either the PDL or PA list will require prior authorization. If a request for authorization is needed the information should be submitted by your physician/clinician to US Script on the Buckeye Health Plan/US Script form: Medication Prior Authorization Request Form. This form should be faxed to US Script at 1-866-399-0929. This document is located on the Buckeye website at www.bchpohio.com.

Buckeye will cover the medication if it is determined that:

1. There is a medical reason you need the specific medication.
2. Depending on the medication, other medications on the PDL have not worked.

All reviews are performed by a licensed clinical pharmacist using the criteria established by the Buckeye P&T Committee. Once approved, US Script notifies the physician/clinician by fax. If the clinical information provided does not meet the coverage criteria for the requested medication Buckeye we will notify you and your physician/clinician of alternatives and provide information regarding the appeal process.

The P&T committee has reviewed and approved, with input from its members and in consideration of medical evidence, the list of drugs requiring prior authorization. This PDL attempts to provide appropriate and cost-effective drug therapy to all members covered under the Buckeye pharmacy program. If a patient requires a brand name medication that does not appear on the PDL, the physician/clinician can make a PA request for the brand name medication. It is anticipated that such exceptions will be rare and that PDL medications will be appropriate to treat the vast majority of medical conditions.

A phone or fax-in process is available for PA requests.

US Script Contact Information: Prior Authorization Fax 1-866-399-0929

Prior Authorization Phone 1-866-399-0928

Mailing Address: 2425 W Shaw Ave, Fresno, CA 93711

When calling, please have patient information, including Medicaid number, complete diagnosis, medication history and current medications readily available. US Script will provide a decision to the request by fax or phone within 24 hours. When incomplete information is received to support medical necessity of a drug requiring PA, the request will be denied. If the request is approved, information in the on-line pharmacy claims processing system will be changed to allow the specific member to receive this specific drug. If the request is denied, information about the denial will be provided to the clinician.

Clinicians are requested to utilize the PDL when prescribing medication for those patients covered by the Buckeye pharmacy program. If a pharmacist receives a prescription for a drug that requires a PA, the pharmacist should attempt to contact the clinician to request a change to a product included in the PDL.

Phone Numbers for Buckeye Health Plan Member Services

The phone and fax lines listed in the Prior Authorization Process section are dedicated to clinicians requesting PA medication items only. Members can not be assisted if they call the PA toll-free number. Buckeye Member Services may be reached at 1-866-246-4358 (TTY 1-800-750-0750).

Transition Period

Buckeye members new to managed care will be able to receive their prescription drugs with no new PA requirements than traditional Fee-for-Service (FFS) Medicaid for 30 days they are enrolled in our plan if the prescription drug does not require PA by traditional FFS Medicaid. This means that if you needed a PA under traditional FFS Medicaid to get your prescriptions you will most likely still need a PA to get the same medication. If you have not needed PA under traditional FFS Medicaid to get your prescription you will not need PA from Buckeye to get the same medication for the first 30 days you are enrolled. This will allow you and your doctor time to consider other medications that do not require PA and to learn the steps to getting PA. Buckeye's PDL and PA List identify the drugs that will require PA once you have been a managed care member for 30 days. If you are not sure when you will need to have your medications prior authorized or you have other questions about continuing to get your medications, call member services at 1-866-246-4358 (TTY 1-800-750-0750).

72-Hour Emergency Supply Policy

State and federal law require that a pharmacy dispense a 72-hour (3-day) supply of medication to any patient awaiting a PA determination. The purpose is to avoid interruption of current therapy or delay in the initiation of therapy. All participating pharmacies are authorized to provide a 72-hour supply of medication and will be reimbursed for the ingredient cost and dispensing fee of the 72-hour supply of medication, whether or not the PA request is ultimately approved or denied. The pharmacy must call the US Script Pharmacy Help Desk at 1-800-460-8988 for a prescription override to submit the 72-hour medication supply for payment.

Step Therapy

Some medications listed on the Buckeye PDL may require specific medications to be used before you can receive the step therapy medication. If Buckeye has a record that the required medication was tried first the ST medications are automatically covered. If Buckeye does not have a record that the required medication was tried, you or your physician/clinician may be required to provide additional information. If Buckeye does not grant PA we will notify you and your physician/clinician and provide information regarding the appeal process.

Dispensing Limits, Quantity Limits, and Age Limits

Drugs may be dispensed up to a maximum 31 day supply for each new or refill non-controlled substance. A total of 80 percent (80%) of the days supplied must have elapsed before the prescription can be refilled. A prescription can be filled after 26 days. Dispensing outside the quantity limit (QL) or age limits (AL) requires PA. Buckeye may limit how much of a medication you can get at one time. If the physician/clinician feels you have a medical reason for getting a larger amount, he or she can ask for PA. If Buckeye does not grant PA we will notify you and your physician/clinician and provide information regarding the appeal process. Some medications on the Buckeye PDL may have AL. These are set for certain drugs based on Food and Drug Administration (FDA) approved labeling and for safety concerns and quality standards of care. The AL aligns with current FDA alerts for the appropriate use of pharmaceuticals.

Gender Limits

Some medications on the Buckeye PDL may be limited to one gender. These medications have a GL after them on the PDL. These limits are set for certain drugs based on FDA approved labeling and for safety concerns and quality standards of care. Gender limits align with current FDA alerts for the appropriate use of pharmaceuticals.

Medical Necessity Requests

If you require a medication that does not appear on the PDL, you or your physician/clinician can make a medical necessity request for the medication. It is anticipated that such exceptions will be rare and that PDL medications will be appropriate to treat the vast majority of medical conditions. Buckeye requires:

- Documentation of failure of at least two PDL agents within the same therapeutic class (provided two agents exist in the therapeutic category with comparable labeled indications) for the same diagnosis (e.g. migraine, neuropathic pain, etc.); or
- Documented intolerance or contraindication to at least two PDL agents within the same therapeutic class (provided two agents exist in the therapeutic category with comparable labeled indications); or
- Documented clinical history or presentation where the patient is not a candidate for any of the PDL agents for the indication.

All reviews are performed by a licensed clinical pharmacist using the criteria established by the Buckeye P&T Committee. If the clinical information provided does not meet the coverage criteria for the requested medication Buckeye will notify you and your physician/clinician of alternatives and provide information regarding the appeal process.

Appropriate Use and Safety Edits

Your health and safety is a priority for Buckeye. One of the ways we address your safety is through Point-of-Sale (POS) edits at the time a prescription is processed at the pharmacy. These edits are based on FDA recommendations and promote safe and effective medication utilization. Additional information about the drugs that are part of the Appropriate Use and Safety Edits can be found in the Appropriate Use and Safety Edits document located on the Buckeye website at www.bchpohio.com.

DUR (Drug Utilization Review) Programs

Buckeye will monitor ongoing prescribing of medications for clinical appropriateness. Buckeye reviews prescribing retrospectively to review for both safety and efficacy. Buckeye will work with US Script to review for such things as disease management, fraud and abuse (i.e. Coordinated Services Program), and prescriber profiling. Prescriber or member outreach may occur based on prescribing/dispensing patterns. Buckeye will continue to monitor for issues going forward and take action as needed.

Mandatory Generic Substitution

When generic drugs are available, the brand name drug will not be covered without Buckeye PA. Generic drugs have the same active ingredient and work the same as brand name drugs. If you or your physician/clinician feels a brand name drug is medically necessary, the physician/clinician can ask for PA.

We will cover the brand name drug according to our clinical guidelines if there is a medical reason you need the particular brand name drug. If Buckeye does not grant PA we will notify you and your physician/clinician and provide information regarding the appeal process. The provision is waived for the following products due to their narrow therapeutic index (NTI) as recognized by current medical and pharmaceutical literature: Aminophylline, Amiodarone, Carbamazepine, Clozapine, Cyclosporine, Digoxin, Disopyramide, Ethosuximide, Flecainide, L-thyroxine, Lithium, Phenytoin, Procainamide, Propafenone, Theophylline, Thyroid, Valproate Sodium, Valproic Acid, and Warfarin.

Over-The-Counter Medications

The pharmacy program covers a large selection of OTC medications. All covered OTC medications appear in the PDL. All OTC medications must be written on a valid prescription by a licensed physician/clinician in order to be reimbursed.

Filling a Prescription

You can have prescriptions filled at a Buckeye network pharmacy. If you decide to have a prescription filled at a network pharmacy you can locate a pharmacy near you by contacting a Buckeye Member Services Representative. At the pharmacy you will need to provide the pharmacist with your prescription and your Buckeye ID card.

Please visit the Buckeye website at www.bchpohio.com to access the Buckeye PDL, Buckeye PA lists, important forms, and provider/member information 24 hours a day, seven days a week.

Mail Order Program

Buckeye Health Plan offers a 90 day supply (3 month supply) of maintenance medications by mail. These drugs are used to treat long-term conditions or illnesses. You can find a list of covered maintenance medications in the Maintenance Drug Pharmacy Program document located on the Buckeye website at www.bchpohio.com.

Please contact a Buckeye Member Service Representative if you have any questions. To transfer a current prescription or to have you doctor phone a prescription directly to our mail order pharmacy they may call RxDirect at 1-800-785-4197.

Buckeye Health Plan Pharmacy Program - Additional Information

Working with Our Pharmacy Benefit Managers

Buckeye works with two Pharmacy Benefit Managers (PBMs). Acaria Health is the preferred provider of biopharmaceuticals and injectables for Buckeye. US Script administers all other prescribed drugs. Certain drugs require PA to be approved for payment by Buckeye. These include:

- Some Buckeye drugs listed on the PA list
- Most injectables including Procrit, Neulasta and Neupogen.

AcariaHealth – Biopharmaceuticals and Injectables

AcariaHealth is the provider of biopharmaceuticals and injectables for Buckeye. Most injectables require PA to be approved for payment. Our Medical Director oversees the clinical review. Buckeye provides a number of biopharmaceutical products through the Biopharmaceutical Program. Most biopharmaceuticals and injectables require a PA to be approved for payment by Buckeye; however, PA requirements are programmed specific to the drug as indicated in the list provided in the Biopharmaceutical Program document located on the Buckeye website at www.bchpohio.com. Follow these guidelines for the most efficient processing of your authorization requests.

Providers can request that AcariaHealth deliver the specialty drug to the office/member. If you want AcariaHealth to deliver the specialty drug to the office/member:

1. Fax the AcariaHealth PA form to 1-855-217-0926 for PA.
2. If approved, AcariaHealth will contact the provider or member for delivery confirmation.

Pharmacy and Therapeutics Committee

The Buckeye Pharmacy and Therapeutics (P&T) Committee continually evaluates the therapeutic classes included in the PDL. The Committee is composed of the Buckeye Medical Director, Buckeye Pharmacist, and several community based primary care physicians and specialists. The primary purpose of the Committee is to assist in developing and monitoring the Buckeye PDL and to establish programs and procedures that promote the appropriate and cost-effective use of medications. The P&T Committee schedules meetings at least twice yearly, and coordinates reviews with a national P&T Committee which meets at least 4 times a year. Changes to the Buckeye PDL are done in conjunction with the approval of the State of Ohio. Buckeye will meet with the State quarterly to review any proposed changes and update the PDL and PA lists accordingly based on the results of both the Buckeye P&T Committee and the requirements from the State of Ohio. Buckeye will follow all State policies regarding member notification when changes are made to the PA list.

Unapproved Use of Preferred Medication

Medication coverage under this program is limited to non-experimental indications as approved by the FDA. Other indications may also be covered if they are accepted as safe and effective using current medical and pharmaceutical reference texts and evidence-based medicine. Reimbursement decisions for

specific non-approved indications will be made by Buckeye. Experimental drugs and investigational drugs are not eligible for coverage.

Benefit Exclusions

The following drug categories are not part of the Buckeye PDL and are not covered by the 72-hour emergency supply policy:

- Fertility enhancing drugs
- Anorexia, weight loss, or weight gain drugs
- Immunizations and vaccines (except flu vaccine)
- Drug Efficacy Study Implementation (DESI) and Identical, Related and Similar (IRS) drugs that are classified as ineffective
- Infusion therapy and supplies
- Drugs and other agents used for cosmetic purposes or for hair growth
- Erectile dysfunction drugs prescribed to treat impotence

DESI drugs products and known related drug products are defined as less than effective by the FDA because there is a lack of substantial evidence of effectiveness for all labeling indications and because a compelling justification for their medical need has not been established. State programs may allow coverage of certain DESI drugs. Any DESI drugs that are covered are listed in the PDL.

Newly Approved Products

We review new drugs for safety and effectiveness for the first 12 months before adding them to the Buckeye PDL. During this period, access to these medications will be considered through the PA review process. If Buckeye does not grant PA we will notify you and your physician/clinician and provide information regarding the appeal process.

Medical Benefits

The following drugs and medical services are a part of the Buckeye medical benefit and are not available at the retail pharmacy:

1. Members will receive vaccines as a medical benefit under physician reimbursement if listed the vaccine covered under the vaccine for children program.
2. Cosmetic-botox is a medical benefit that is covered for non-cosmetic purposes only- it requires a PA from Buckeye.
3. Blood and blood products.
4. Those specialty injectable drugs available as a medical benefit. Most injectables require PA from Buckeye.

Prescribers who request medical prior authorizations at US Script will be redirected to contact Buckeye Health Plan as applicable.

DME/Home Health Benefits

The following medical services are a part of the Buckeye medical benefit and are not available at the retail pharmacy:

1. Enteral products
2. Nebulizers
3. Medical supplies

Injectable Drugs

Injections that are self-administered by the member and/or a family member and appear on the PDL are covered by the Buckeye pharmacy program. Insulin vials, Glucagon Kit, Epi-pen, Ana-Kit, Imitrex, and Depo-Provera IM are covered by Buckeye and do not require a PA. Pre-filled insulin cartridges and syringes require PA. All other injectables require PA.

Coordinated Services Program

Consumers eligible for Ohio Medicaid may be selected for enrollment in the Coordinated Services Program, or CSP. CSP members may need to select one pharmacy to get medications filled, select one doctor to write their scripts, or both depending on the CSP enrollment. While in CSP, the member will still be able to get all medically necessary Medicaid-covered health care services. However, the member must use the selected pharmacy or doctor for pharmacy services. Members enrolled in the CSP program will also be enrolled in Care Management to help better coordinate the member's needs. Care Managers will work with the CSP members, to help make sure all their needs are met. Except in an emergency, the member should contact their PCP before seeing other doctors. By knowing the complete medical history, the PCP can take better care of the patient.

We help keep you informed

The Buckeye Pharmacy Director, a registered pharmacist, compiles current pharmacological policy and information about important seasonal topics such as Respiratory Syncytial Virus (RSV) and influenza. The information is consistent with published guidelines and is mailed to network providers as a service. The most current Buckeye PDL and PA List can be downloaded from our website at www.bchpohio.com.

Contacts for Pharmacy Appeals/Grievances

Members: In the event that a member disagrees with the decision regarding coverage of a medication, the member may file an appeal with Buckeye by calling Buckeye Member Services at 1-866-246-4358 (TTY 1-800-750-0750).

Physicians / Clinicians: In the event that a clinician disagrees with the decision regarding coverage of a medication, the clinician may request an appeal by submitting additional information to Buckeye in writing to the Appeals Department at the following address:

Buckeye Health Plan
4349 Easton Way, Suite 200
Columbus, Ohio 43219

A decision will be rendered and the clinician will be notified with a mailed response. An expedited appeal may be requested at any time the provider believes the adverse determination might seriously jeopardize the life or health of a member by calling Buckeye at 1-866-246-4356 ext. 24084 (TTY 1-800-750-0750). A response will be rendered the same day as receipt of complete information. In circumstances that require research, a same day response may not be possible.

Abbreviations

The following notations and abbreviations may be found throughout the drug listing in the limitations and restrictions column.

DS:	Days Supply
DS/DU:	Days Supply per Dosage Unit
Max Days:	Maximum Days Supply
Max Fills:	Maximum Fills (per a designated time period)
Max Qty:	Maximum Quantity (per claim or designated time period)
Min DS:	Minimum Days Supply
PA:	Prior Authorization
Pkg Size:	Package Size
QL:	Quantity Limit

Over-the-Counter Pharmacy Program

The Buckeye Health Plan pharmacy program covers a variety of OTC products. The products listed below are covered when a valid prescription from a licensed clinician that meets all the legal requirements for a prescription is presented to be filled at a Buckeye network pharmacy. Covered products are available in quantities up to a 30-day supply. Refer to the Buckeye Health Plan PDL for a complete listing of available OTC items. Please note that generic products must be prescribed when available.

ANALGESICS & ANTIPYRETICS

Acetaminophen – **generic** tablets, elixir, drops, suppositories

Aspirin – **generic** tablets

ANTACIDS

Maalox – **generic** tablets, liquid

Mylanta DS – **generic** liquid

ANTHELMINTICS

Pin-X – Pyrantel pamoate tablets/chewable/suspension

ANTI-DIARRHEALS

Imodium A-D – **generic** (loperamide) capsules

Kaopectate – (attapulgate) suspension

Pepto-Bismol – **generic** (pink bismuth) chewable/liquid

ANTI-EMETIC

Triaminic – **generic** AM, Night, soft chewable tablets

DILUENTS

Sodium chloride – **generic** aerosol solution

DME PRODUCTS

Diabetic testing supplies (TRUEtest preferred) Gauze pad – 2”x2”, 3”x3”, 4”x4”

Peak Flow Meters

Spacers

OTIC PREPARATIONS

Debrox drops – **generic** (carbamide peroxide 6.5%)

ELECTROLYTES

Electrolyte solutions – **generic**

H2-RECEPTOR ANTAGONISTS

Antivert – **generic** (meclizine)

ANTI-FLATULENTS

Gas-X chewables – **generic** simethicone 80mg

Mylicon drops** – **generic** simethicone 40 mg/0.6ml

ANTI-HISTAMINES

Benadryl – **generic** (diphenhydramine) capsules, liquid

Chlor-Trimeton – **generic** (chlorpheniramine) tablets,

liquid Claritin – **generic** (loratadine) tablets, syrup

Claritin-D – **generic** (loratadine/ pseudoephedrine) tablets

Zyrtec – **generic** (cetirizine) tablets/chewables/liquid

CONTRACEPTIVES

Condoms lubricated

COUGH/EXPECTORANT/DECONGESTANT

Dallergy drops (chlorpheniramine & phenylephrine liquid) 1-2 mg/ml

Decon A drops (brompheniramine & phenylephrine liquid) 2-5 mg/ml

Delsym – DM Polistirex Liquid CR

Dimetapp – **generic** (brompheniramine & phenylephrine elixir) 1-2.5 mg/5ml

Mucinex – **generic** (guaifenesin) tablets

Robitussin – **generic** (guaifenesin) syrup

Robitussin DM – **generic** (guaifenesin DM) syrup

Sudafed – **generic** (pseudoephedrine) tablets, liquid

Pepcid – **generic** (famotidine) 10mg tablets
Tagamet – **generic** (cimetidine) 200mg tablets
Zantac – **generic** (ranitidine) 75mg tablets

IRON PREPERATIONS

Ferrous fumarate – **generic** tablets Ferrous gluconate – **generic** tablets Ferrous sulfate – **generic** tablets, elixir, drops Polysaccharide Iron Complex – **generic** capsules 150mg

LAXATIVES

Citrate of magnesium – **generic**
Colace – **generic** (docusate sodium) capsules
Dulcolax – **generic** (bisacodyl) tablets, suppositories
Fleet enema – **generic**
Metamucil – **generic** (psyllium)
Milk Of Magnesium – **generic** MOM
Miralax OTC
Pediatric glycerin suppositories – **generic**
Senokot – **generic** (senna) tablets
Sorbitol oral solution 70%

MINERALS

Citracal – **generic** (calcium citrate) - tablets
Citracal+D – **generic** (calcium citrate+D) tablets
Magnesium oxide – **generic**

Neutra-phos/K powder – **generic**
Oscal 500+Vit D – **generic** (calcium carbonate+D)
tablets Tums Chew Tabs – **generic** (calcium carbonate)
Zinc sulfate – **generic** capsules 220mg

NASAL

Nasalcrom spray – **generic**
Saline nasal spray/gel/solution

NSAIDS

Ibuprofen – **generic** tablets, chewable, liquid,
drops Naproxen – **generic** tablets

NUTRITIONAL SUPPLEMENTS

Omega-3 fatty acid capsules 1000mg, 1200mg

OPHTHALMIC PREPARATIONS

Alaway (ketotifen 0.025%)
Artificial tears – **generic** polyvinyl alcohol drops
Lacri-lube – **generic** (artificial tears) ointment
Naphcon-A – **generic** (naphazoline/pheniramine 0.025/0.3)
Zaditor-OTC (ketotifen 0.025%)

PEDICULICIDES

NIX – **generic** (permethrin)
RID – **generic** (pyrethrins/piperonyl butoxide)

PROTON PUMP INHIBITORS (PPIS)

Prevacid 24 HR capsules
Prilosec OTC tablets

SLEEPING AIDS

Nytol – **generic** (diphenhydramine sleep) tablets/capsules
Unisom – **generic** (doxylamine sleep) tablets

SMOKING DETERRENTS

Commit Lozenges
NicoDerm CQ transdermal patch – **generic**
Nicorette DS gum – **generic**

Nicorette gum – **generic**
Nicotrol transdermal patch – **generic**

TOPICALS

AmLactin – **generic**
Bacitracin ointment – **generic**
Benzoyl peroxide – **generic** liquid/gel/lotion
Calamine – **generic**
Capsaicin cream/gel/lotion – **generic**
Clotrimazole – **generic** cream, vaginal cream/inserts
Hibiclens – **generic** (chlorhexidine gluconate liquid) 4%
Hydrocortisone – **generic** cream, lotion, ointment, solution
Miconazole – **generic** cream, vaginal cream/inserts
Polysporin – **generic** ointment
Nupercainal – **generic** (dibucaine rectal ointment) 1%
Selsun Blue – **generic** (selenium shampoo) 1%
Tolnaftate – **generic** cream
Triple antibiotic ointment
Vagistat – **generic** (tioconazole vaginal ointment) 6.5%
Xylocaine **generic** (lidocaine) gel 2%
Zinc oxide ointment – **generic**

VITAMINS

Folic acid – **generic**
Multi-vitamins with iron – **generic** tablets, liquid, chewable
Multi-vitamins – **generic** tablets, liquid, chewable
Niacin – **generic**
Prenatal vitamins – **generic** tablets
Pyridoxine – **generic** tablets
Slo-Niacin CR tablets
Thiamine – **generic** tablets

LEGEND

TYPE		DESCRIPTION
QL	Quantity Limit	There is a limit on the amount of drug covered per prescription, or within a specific time frame.
PA	Prior Authorization	Prior Authorization required before prescription can be filled.
ST	Step Therapy	Requires trial and failure of one or more preferred products prior to coverage.
GL	Gender Limit	Drug is limited to specific gender.
AL	Age Limit	Drug is limited to specific age.
MDD	Max Daily Dose	A limit on the number of times the drug can be taken per day.
MPL	Max Package Limit	A limit on the amount of drug covered per prescription.
MFL	Max Fill Limit	There is a limit on the number of times this drug can be refilled.
MDS	Max Days Supply	There is a limit on the amount of this drug that is covered.
C	Custom	This drug has unique restrictions.
