Payment Policy: Cerumen Removal
Reference Number: CC.PP.008
Product Types: ALL
Effective Date: 01/01/2014
Last Review Date: 04/01/2019

See Important Reminder at the end of this policy for important regulatory and legal information.

Policy Overview
Cerumen impaction is a condition in which earwax has become tightly packed in the external ear canal to the point that the canal is blocked. Extraction requiring methods beyond simple irrigation or removal by Q-tip or cotton-tipped applicator may require a physician’s skill.

The purpose of this policy is to define separate payment criteria for removal of impacted cerumen to be used by the Health Plan in making payment decisions and administering benefits.

Application
This policy applies to all products.

Policy Description
Cerumen, or earwax, is the product of desquamated skin mixed with secretions from the adnexal glands of the external ear canal. It provides lubrication, acts as a vehicle for the removal of contaminants away from the tympanic membrane and prevents desiccation of the ear canal.

Though usually asymptomatic, cerumen can accumulate and become impacted causing such symptoms as conductive hearing loss, pain, itching, cough, dizziness, vertigo, and tinnitus. Impacted cerumen can also impede the evaluation and management of other otologic conditions.

Impacted cerumen may often be removed by simple irrigation with a bulb syringe, with or without chemical softeners, or removal by Q-tip or cotton-tipped applicator, and generally does not require a physician’s skill. Some cases may require use of forced irrigation with a metal hand-held syringe or an electric oral jet irrigator. Others may need manual disimpaction under direct vision using suction, probes, forceps, hooks, wire loops, or other instruments.

Removal of impacted cerumen will require a physician’s skill when removal by an individual other than a physician or qualified non-physician practitioner poses an unacceptable risk of complications, such as tympanic membrane perforation. Cerumen removal requiring a physician’s skill may include cases where the tympanic membrane cannot be observed (e.g., total occlusion or impaction), there are overt medical contraindications such as anatomical abnormalities, surgical modifications, or risk of infection, presence of medical conditions that pose undue risk of excessive bleeding (e.g., use of anticoagulants), or the cerumen cannot be removed safely without undue risk of abrasion, laceration, or tympanic membrane perforation.
**PAYMENT POLICY**

**Cerumen Removal**

**Reimbursement**
Billing and reimbursement for CPT code 69210 or HCPCS code G0268 is limited to clinical circumstances where documentation supports these to be services requiring a physician’s skill. The routine removal of asymptomatic, non-impacted, non-obstructive cerumen does not generally require a physician’s skill and is thus not reimbursed separately, or in addition to an E/M service.

Separate payment may be made only for:
1. Removal of symptomatic impacted cerumen;
2. Removal of impacted cerumen impeding the physician’s ability to properly evaluate or manage other signs, symptoms or conditions (e.g., examination of the tympanic membrane in cases of otitis media); or
3. Removal of impacted cerumen impeding a physician’s or audiologist’s ability to perform covered audiometry.

For cerumen removal that is not impacted or does not require instrumentation, e.g., by irrigation only (procedure code 69209), reimbursement for the service is included in the payment for the applicable E/M service code billed that day, which may include a new or established patient office or other outpatient services [99201-99215], hospital observation services [99217-99220, 99224-99226], hospital care [99221-99223, 99231-99233], consultations [99241-99255], emergency department services [99281-99285], nursing facility services [99304-99318], domiciliary, rest home, or custodial care services [99324-99337], or home services [99341-99350]).

If documentation indicates that the patient had cerumen impaction and the removal required physician work and instrumentation such as wax curettes, forceps and/or suction rather than simple lavage (69209), modifier -59 may be appended to procedure 69210 to provide separate payment when an E/M code is billed by the same provider on the same day.

When the sole reason for the visit is the medically necessary removal of symptomatic impacted cerumen, an E&M service may not be billed in addition.

Visualization aids, such as, but not necessarily limited to binocular microscopy, are considered to be included in the reimbursement for CPT code 69210 and HCPCS code G0268 and should not be billed separately.

**Utilization**
An E&M service on the same day in addition to removal of impacted cerumen may not be billed unless it represents and is documented to be a significant, separately identifiable service on the same day.

For example:
- If the patient has pain in the external ear as his/her only complaint and the removal of cerumen addresses that complaint, one should bill only for removal of the cerumen, CPT code 69210.
- If the patient also has symptoms of otitis media requiring further evaluation, then it may be justified to also bill for an E&M service with modifier –25.
PAYMENT POLICY
Cerumen Removal

HCPCS code G0268 should be billed only where a physician’s skill is needed to remove impacted cerumen on the same day as audiologic function testing performed by his/her employed audiologist. This code should not be used when the audiologist removes the cerumen, because removal of cerumen is considered to be part of the diagnostic testing and is not paid separately.

Documentation Requirements
Documentation should describe the degree of cerumen impaction, procedure performed, instrumentation used, and the name and professional credentials of the performing provider.

Coding and Modifier Information
This payment policy references Current Procedural Terminology (CPT®). CPT® is a registered trademark of the American Medical Association. All CPT® codes and descriptions are copyrighted 2018, American Medical Association. All rights reserved. CPT codes and CPT descriptions are from current manuals and those included herein are not intended to be all-inclusive and are included for informational purposes only. Codes referenced in this payment policy are for informational purposes only. Inclusion or exclusion of any codes does not guarantee coverage. Providers should reference the most up-to-date sources of professional coding guidance prior to the submission of claims for reimbursement of covered services.

Important Reminder
For the purposes of this payment policy, “Health Plan” means a health plan that has adopted this payment policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any other of such health plan’s affiliates, as applicable.

The purpose of this payment policy is to provide a guide to payment, which is a component of the guidelines used to assist in making coverage and payment determinations and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage and payment determinations and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable plan-level administrative policies and procedures.

This payment policy is effective as of the date determined by Health Plan. The date of posting may not be the effective date of this payment policy. This payment policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this payment policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. Health Plan retains the right to change, amend or withdraw this payment policy, and additional payment policies may be developed and adopted as needed, at any time.
This payment policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This payment policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this policy are independent contractors who exercise independent judgment and over whom Health Plan has no control or right of control. Providers are not agents or employees of Health Plan.

This payment policy is the property of Centene Corporation. Unauthorized copying, use, and distribution of this payment policy or any information contained herein are strictly prohibited. Providers, members and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.

**Note: For Medicaid members**, when state Medicaid coverage provisions conflict with the coverage provisions in this payment policy, state Medicaid coverage provisions take precedence. Please refer to the state Medicaid manual for any coverage provisions pertaining to this payment policy.

**Note: For Medicare members**, to ensure consistency with the Medicare National Coverage Determinations (NCD) and Local Coverage Determinations (LCD), all applicable NCDs and LCDs should be reviewed **prior to** applying the criteria set forth in this payment policy. Refer to the CMS website at [http://www.cms.gov](http://www.cms.gov) for additional information.
