See Important Reminder at the end of this policy for important regulatory and legal information.

Policy Overview
The American Medical Association’s (AMA) Current Procedural Terminology (CPT®) book describes a consultation as a type of evaluation and management (E&M) service provided at the request of another physician or appropriate source to either recommend care for a specific condition or problem, or to determine whether to accept responsibility for ongoing management of the patient’s entire care or for the care of a specific condition or problem.

Furthermore, if subsequent to the completion of the consultation, the consultant assumes responsibility for the management of a portion or all of the patient’s condition(s), the appropriate E&M procedure code for the location of service should be reported.

The purpose of this policy is to outline how the health plan evaluates CPT consultation codes 99241-99245 and HCPS codes G0425-G0427 for reimbursement, particularly identifying those that should have been billed at the appropriate level of office visit, established patient or subsequent hospital care.

CMS no longer recognizes codes 99241-99245 and 99251-99255 for Medicare payment; therefore, providers should never bill these codes for Medicare members. Instead, (for Medicare members) providers should report the appropriate Evaluation and Management code payable under the fee schedule (including for visits that could be described by CPT consultations codes), that identifies where the visit occurred and the complexity of the visit performed.

Application

2. Outpatient Institutional Claims
3. Same member
4. Same Provider

Reimbursement
Claim lines that contain an outpatient consultation, when another outpatient consultation was billed by the same provider within six months, will be denied.

Services initiated by a parent and/or family and not requested by a physician or other appropriate source should not be reported using the CPT consultation codes 99241-99245 or HCPCS consultation codes G0425-G0427, but may be reported using appropriate office visit, hospital care, home service or domiciliary/rest home care codes.

CPT guidelines state that only one outpatient consultation should be reported by a consultant per admission. E&M services after the initial consultation during a single admission should be reported using non consultation E&M codes.

Documentation Requirements
The following criteria apply:
- A written or verbal request for consult must be made by an appropriate source
- The request must be documented in the patient’s medical record
- The consultant’s opinion must be documented in the patient’s medical records
- The consultant’s opinion must be communicated by written report to the requesting physician or other appropriate source
