

Free Translation Services

Buckeye Health Plan supports our members every step of the way by providing free aids and services (even throughout the grievance process) to people with disabilities to remove language and communication barriers, including:

- Qualified sign language interpreters
- Written information in other formats (large print, audio, accessible electronic formats, etc.)
- Language services for people whose primary language is not English

If your patient needs an interpreter for their medical appointment, contact Buckeye before the appointment to arrange for one.
